

RONCO

PRESIDENT'S MESSAGE **2018**

Dear Valued Ronco Customers & Partners,

On behalf of myself and all my colleagues at Ronco, I wish you a very Happy New Year. I trust 2017 was a good year for all and hope that 2018 will be even better for all of us.

Last year, we saw a number of challenges that negatively impacted production. New strict pollution controls in China put unprecedented pressures on our supply chain and I truly appreciate the support extended to us during this time. Despite the struggle which some may call difficult, I personally see it as exciting - giving us an opportunity to find new ways to improve and succeed!

Ronco was born 21 years ago with a vision to one day be a global company that makes a difference in the occupational safety environment. Today, I am happy to say that we no longer just support the occupational safety needs in Canada, but have a footprint in USA, China, parts of Europe and Africa. Every day at Ronco each one of us comes to work with a mission to strive towards protecting workers and making lives better in the occupational safety environment. We are all passionate towards this mission and get inspired by the thought that we are making a difference.

R&D and Product Innovation will continue to be our focus. We are working on some very exciting projects and shortly you'll hear more news on our breakthrough products.

At the heart of all we do are our valued customers. I can promise you that we will continue to serve them with the same passion that we had when we started.

In closing, I want to reiterate my words from each year – Thank you everyone; customers, end-users, vendors, employees and all of our partners, for your continued support and for giving us the opportunity as a dedicated Ronco team to serve its customers and partners!

Wishing you and your loved ones a successful, happy and healthy 2018!

Sincerely,

Ron Pecchioli
President
